## What is anger?

Anger is a feeling you have when you are cross or frustrated about something

Anger is a normal feeling. Everyone gets angry sometimes and that's ok

Some people find it difficult to control their anger and lose their temper

When you lose your temper it can make it hard for you to do everyday things. This can include making friends, going to work, going to college and having fun

## Why does it happen?

There are lots of reasons why you might get angry

### You might get angry because

Others are not listening to you

You are being treated unfairly

You are missing your family or friends

You have had bad news

## Why does it happen?

### You might get angry because

You are in a lot of pain

- You might have a headache
- You might have toothache
- You might have stomach pains

### You might get angry because

You are bored because you have nothing to do

You are bored because you are doing the same thing over and over

### You might get angry because

You are worried about being asked to do something you find difficult

You are worried about something that might be happening soon

### When you get angry

1. You might think and feel differently

You might have changes in your body

3. You might behave differently

The next few pages will tell you more about the things that happen when you get angry

ABUHB/PIU:1093/2 – February 2019 Expiry Date: February 2022

6

1. You might think and feel differently

When you feel angry you might have different thoughts than when you feel calm

You might think that no-one listens or it is not fair

When you have these thoughts you might feel out of control

When you feel out of control you might feel more angry and you might do things you would not usually do

2. You might have changes in your body

Your heart might beat faster

You might sweat

You might start breathing faster

You might feel like you have lots more energy

### 3. You might behave differently

You might hurt yourself by head banging, skin picking, self-biting or scratching

You might hurt others by saying nasty things or doing things that hurt other people like hitting them

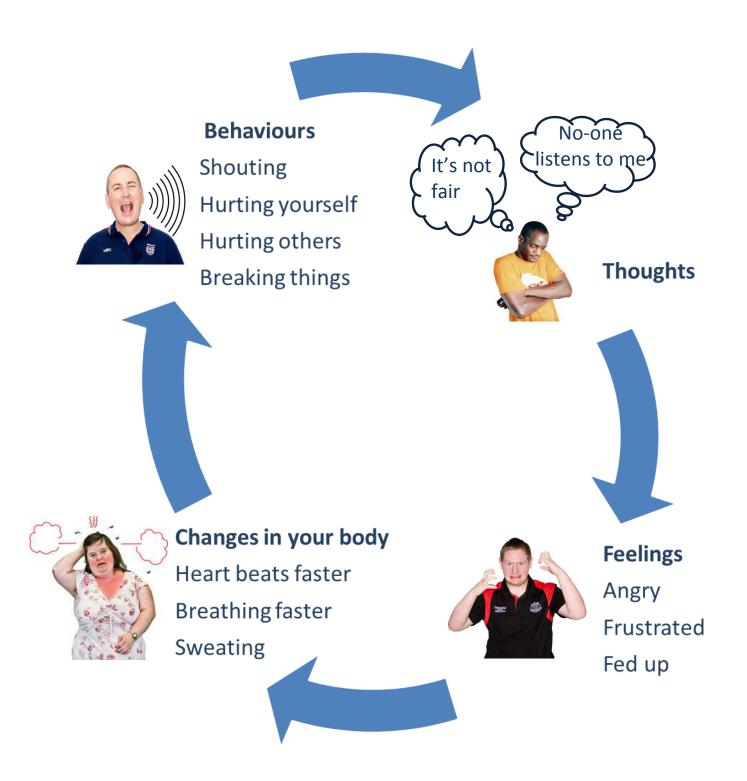

Break things like ripping clothes, breaking windows, throwing things or slamming doors

These behaviours can make it hard to do everyday things like making friends, going out and living where you want to live

ABUHB/PIU:1093/2 – February 2019

This diagram shows what might happen to you when you get angry

# What you can do to help yourself

When you have problems with your anger you can do things to help yourself feel better

Don't drink too much alcohol or take illegal drugs

## What you can do to help yourself

### **Take your medication**

If your doctor has given you medication to help you feel calmer make sure you take this medication

#### Do some exercise

Exercise makes you feel good and can also help you to meet new people

You could go walking, dancing or

### Do things you enjoy doing

When you are angry you might not feel like doing very much. Doing things you enjoy is important to help you feel better

# What you can do to help yourself

#### Relax

When you feel angry it helps to breathe slowly and deeply

It can also help to have a bath or listen to some music to relax

### Eat healthy foods

It is always important to eat healthy foods

When you feel angry it is even more important to eat healthy foods because unhealthy foods can make you feel worse

# Where you can get support

### Talk to your doctor

Your doctor could be your GP or psychiatrist. Your doctor can make sure you get the right type of help

Counselling or therapy is a really good type of help

You can talk to your counsellor or therapist about your anger

## What others can do to help you

### Others can spend time with you by

Talking with you and listening to your problems

Helping you to learn new ways of dealing with your anger

### Others can find out why you are angry by

Asking you what is wrong

Asking you what makes you happy and sad

### Others can help make your life feel good by

Helping you do things you enjoy and things that help you relax

Helping you to do the everyday
things you need to do like shopping
and washing your clothes

Supporting you to see your doctor or nurse
