Greeper Laces

Greeper® Laces are an amazing new invention that enables the user to loosen and tighten laces with ease and they never come undone. It is a small device that enables people with use of only one hand to be able to tighten laces without having to tie them. Also suitable for those that cannot fasten laces themselves. Each pack includes a demonstrator card and a Greeper lace with instructions on how to fit the lace to a pair of shoes. There are sports versions, versions for hiking shoes as well as ordinary shoes.
