Zieler Easywriter A3 Ergonomic Writing Slope

This writing slope helps to provide a more comfortable writing posture for users, bringing the work surface closer to the user and encouraging a more upright position, thus improving positioning for shoulders, elbows and wrists, helping to improve writing tasks.

The non-slip rubber feet stop the slope from sliding around on the table. The generous size of this slope (A3) allows a more effective work space so that the child can angle their paper when needed.

These are available to purchase online from
