The Writing Claw Pencil Grip

The CLAW is a fun and effective way to teach young children how to hold their pencil correctly. All children, including those with Autism, ADHD, developmental disabilities, learning disabilities and general fine motor delay can all benefit from using the CLAW. When using the CLAW, students can focus on good handwriting rather than the mechanics of holding the pencil. The result is an efficient pencil grasp and improved handwriting!

- Simple, and habit forming
- Fits Left or Right Hand
- Revolutionary grip ensuring true finger position
- Easy to use
- Recommended by Occupational Therapists and Teachers
- Works great for holding forks, spoons, and paint brushes for people with hand disabilities
- Latex Free

These are available to purchase online from a variety of suppliers including: www.tts-group.co.uk, www.amazon.co.uk www.cheapdisabilityaids.co.uk
