

# Do you live with Diabetes?

HELP US HELP OTHERS

You are invited to participate in a focus group discussion about Diabetes self-management and your experiences with annual review checks.

Your insights are valuable to us. We want to improve our patient-facing documentation to make sure the importance of the annual checks and screening is understood.

During the focus group, we will:

- Share examples of patient leaflets and videos that talk about the importance of providing a urine sample;
- Gather your opinions and feedback on the language and imagery used;
- Explore your experiences with having this test in the past, and any suggestions you may have

Option	Date	Time	Location
1	Tuesday 8th July	17:30-18:30	Online – MS Teams*
2	Wednesday 9th July	12:30-13:30	Online – MS Teams*
