

- Which vaccines can people get there?
We are aiming to stock all vaccinations, but we would recommend contacting our booking centre and ringing ahead to check the vaccination you want is in stock.
- Who can go there – eligible people or anyone?
Anyone can walk into our centre to receive guidance and advice regarding all vaccinations. Staff at the vaccination centre can check your vaccine record and eligible patients may be able to receive a vaccination depending on availability.
- Can people request their vaccinations take place there if they normally have them somewhere else?
We ask that you honour any booked appointments for vaccination with our already established services, GPs, Pharmacies, School Nursing Vaccination Team etc, however if you would like to have your vaccine at the centre then please ensure to cancel your pre booked appointment and let them know. You can then ring our booking centre or walk in to the Vaccination Centre to receive your vaccination.
- Does it cover Travel vaccinations?
No
- Will there be specific vaccines available on certain days?
We are aiming to have all vaccines in stock on all days but we advise you to contact our booking centre in advance where possible.
- Why was this location chosen?
Cwmbran Town Centre was chosen due to it being the most central point of the Health Board, as well as its public transport and free parking.
- Is this replacing vaccination services in other areas of Gwent?
This centre's services will not be replacing current established services, we ask that you still honour any appointments given to you in GPs, Pharmacies, School Nursing Vaccinations Team etc.
