

Freedom of Information Request	FOI 22-171	27 <sup>th</sup> April 2022
--------------------------------	------------	-----------------------------

**Please may I request the following information:**

**1. What proportion (or number) of women presenting for a medical abortion took**

**a) both pills at the clinic**

**b) one pill at the clinic and one at home and**

**c) both pills at home, for each of the past 5 years?**

The Health Board does not record this level of information.

**2. How many**

**a) ERPC (Evacuation of Retained Products of Conception) procedures and**

**b) how many women presented with RPOC (Retained Products of Conception) for each of the past 5 years?**

The figures below include coded episodes. Please note that there will be some outstanding episodes that have not yet been coded.

The code assignment is dependent on whether the retained products of conception (RPOC) was following a miscarriage, termination, or delivery of a pregnancy. Please note the numbers below may include repeated episodes for the same patient.

Number of admissions:

Year				
2018	2019	2020	2021	2022
307	290	274	298	48

Total number ERCP procedures:

Year				
2018	2019	2020	2021	2022
168	122	111	126	23
