

Freedom of Information Request	FOI 23-162	18 th April 2023
--------------------------------	------------	-----------------------------

I am writing to make an open government request for all the information to which I am entitled under the FOI Act 2000.

Can you please provide an update on the following 3 questions regarding your Trust's Infrastructure?

1. For each element of IT infrastructure below, please provide the requested details (Main provider, annual spend 2021-2022, contract end date):

- **Desktop management** Dell <£3.15 million
- **Networking** Cisco <£1.75 million
- **Data Centre** Cisco inc above
- **Server management** Dell <£250k
- **IT Security** Sophos ,<£200k

Due to the various contract end dates, we would have to review each contract individually in order to determine this information. Therefore, in order to comply with your request, the Health Board has established that this would exceed the appropriate costs limit under Section 12 of the Freedom of Information Act 2000 which is currently £450. We estimate that it would take Health Board staff approximately 66 hours to review. This figure is based on a timescale of 15 minutes per contract. The Health Board's staff will have a total of 265 Contracts to review, to obtain the data this would work out at approximately 66 hours @ £25.00 per hour (cost permitted under the Act) = £1,650. As you will be aware this is not an exemption which requires us to consider the application of the public interest test.

2. For each of the elements below, please provide details about your cloud provider (name, contract end date):

- **Data storage**
- **Networking**
- **Back-up and archive**
- **Application databases**
- **Big Data analytics databases**

The Health Board does not have cloud infrastructure.

3. For each of the elements below, does your organisation plan to move to a cloud-based service in the next 2 years?

- **Data storage** No.
- **Networking** No.
- **Back-up and archive** Considering.
- **Processing and computer capacity** Considering.
- **Application databases** No.
- **Analytics databases** No.

- **Email and collaboration** Already in place.
- **Other (Please specify)**
