

Freedom of Information Request	FOI 21-508	30 th November 2021
--------------------------------	------------	--------------------------------

Since 1st August 2020, please provide a weekly breakdown of the number of new Covid-positive patients in hospitals in the health board area. Please do not count individuals who stay in hospital longer than a week more than once (i.e. they would be recorded as a Covid-positive patient either in the week of their admission or the week of their positive test, and not repeatedly for any subsequent weeks they are in hospital).

**Please state how many were:
Community-onset (admitted to hospital after testing positive in the community)**

Positive on admission (tested positive in a test given on day 1 or day 2 in hospital)

Indeterminate-onset (tested positive at some point between day 3 and day 7 of hospital stay)

Probably hospital-onset (tested positive at some point between day 8 and day 14 of hospital stay)

Definite hospital-onset (tested positive after day 14 of hospital stay)

Please see information provided in the attached spreadsheet.

FOI 21-508

COVID Admissions (01/08/2020 to 29/11/2021) by Case Classification

Week Commencing	Community Onset	Positive on Admission	Indeterminate Onset	Probable Hospital Onset
