

Further to my previous request, I understand that ABUHB have been provided with financial costs to implement the rental at Clarence Office Building, I would be grateful if these can be provided, together with feedback how discussions are progressing.

The lease was negotiated by NHS Wales Shared Services Partnership (NWSSP) on behalf of Health Board. This is a negotiated lease, not a lease which has been commercially advertised with information in the public domain. Therefore you may wish to [contact](#) them direct for the information requested.
