

Freedom of Information Request	FOI 21-035	10 <sup>th</sup> February 2021
--------------------------------	------------	--------------------------------

**How many Deaths are recorded within the Aneurin Bevan trust during the period of February 1<sup>st</sup> 2020 and December 31<sup>st</sup> 2020 of which its cause is purely recorded as COVID-19. (This is not deaths recorded within 28 days of a positive test, but purely deaths as a cause of COVID-19.)**

**How many deaths within 28 days of receiving a positive test result. Deaths related to Covid-19 with pre-existing medical conditions in this period.**

**I would like to request the exact figure regarding the deaths recorded as solely Covid-19. How many of the deaths recorded were over the age of 65.**

**To clarify my request, I would like**

- **Deaths recorded across the entire Aneurin Bevan trust, purely COVID-19 as the cause Between February 1st 2020 – December 31<sup>st</sup> 2020**
- **How many deaths recorded across the trust after a positive COVID-19 test result**
- **Deaths recorded across the trust for COVID-19 when Pre-Existing conditions were present**
- **How many recorded deaths due to COVID-19 for the over 65 age bracket**

The Health Board reports every death in our hospitals to Public Health Wales (PHW), this includes all causation factors. Public Health Wales will then perform statistical alignment meeting the definition of a COVID death and the patient place of residence as some of the Health Board area residents may die in other hospitals outside of the Aneurin Bevan Health Board responsibility. All Health Board deaths data is reported on the Public Health Wales website and in the Office of National Statistics (ONS) data.

Please refer to PHW website and PHW for further information via the following link below:
