

Freedom of Information Request	FOI 21-056	22 nd February 2021
--------------------------------	------------	--------------------------------

I would like to know if there is CCTV at Adferiad ward St Cadocs, if so since when. And I would like to know if there are cameras in the lounge area, if so, since when.

I can confirm that there is CCTV at Adferiad Ward, St Cadoc's Hospital and that this includes cameras in the lounge area. The CCTV was first installed in 2008. Additional cameras were added to the existing CCTV system both inside and outside the Adferiad Ward area in January and March 2020. This included the installation of 2 additional cameras in the lounge area in January 2020.
