

**1. I would like to know how many applicants there were for the consultant post that was allocated to Mrs Saunders (The jobs i am interested in are the last 2 urology consultant posts - One in Female Urology and One in Andrology/urology)**

Two applications were received in total for the Consultant Female Urologist post.

There is no information held on the Health Boards recruitment system TRAC in relation to an Andrology/Urology post. Please note that TRAC is a recruitment management system that handles the recruitment process. Once someone is recruited, the process is complete and in accordance with data protection principles TRAC will delete expired information once it is considered to be no longer relevant for the purposes of which it was collected.

**2. How many applicants were male and how many were female**

In respect of the Consultant Female Urologist post, the Health Board can confirm that both applicants were female.

**3. and the number of each gender that were interviewed.**

One female applicant was interviewed.

**4. Similarly for the female urology post prior to the appointment of Mrs Saunders.**

A search has been undertaken on the TRAC system and no information has been found as per the TRAC record retention policy detailed in Q1.
