

Freedom of Information Request	FOI 21-546	18 th January 2022
--------------------------------	------------	-------------------------------

- 1. How many deaths have there been to date as a direct result of covid 19 where the patients had no underlying health issues i.e they had a clean bill of health. Please break this down into age groups.**

The Health Board reports every death in our hospitals to Public Health Wales (PHW), this includes all causation factors. Public Health Wales will then perform statistical alignment meeting the definition of a COVID death and the patient place of residence as some of the Health Board area residents may die in other hospitals outside of the Aneurin Bevan Health Board responsibility. All Health Board deaths data is reported on the Public Health Wales website and in the Office of National Statistics (ONS) data.

Please refer to PHW website and PHW for further information via the following link below:
