

Freedom of Information Request	FOI 22-001	31 st January 2022
--------------------------------	------------	-------------------------------

I would be grateful if you could provide answers to the following questions regarding The Royal Gwent Hospital:

QUESTION 1 How many people have been admitted to The Royal Gwent Hospital for treatment between March 2020 and November 2021?

35,880 inpatients (both elective and emergency) and 23,126 day cases

QUESTION 2 How many people have been admitted to The Royal Gwent Hospital irrefutably due to COVID-19 between March 2020 and November 2021?

We are unable to provide information on the number of patients admitted '*irrefutably due to COVID*'.

QUESTION 3 How many deaths have been recorded at The Royal Gwent Hospital for any reason between March 2020 and November 2021?

1,641

QUESTION 4 How many deaths have been recorded at The Royal Gwent Hospital irrefutably due to COVID-19 between March 2020 and November 2021 (excluding deaths for any reason within 28 days of a positive test and with no comorbidities)?

We are unable to provide information on the number of patients who died '*irrefutably due to COVID*'.

QUESTION 5 How many beds are classified as "set aside" for the purposes of treatment for those patients admitted irrefutably due to COVID-19 at The Royal Gwent Hospital?

Unfortunately, it is not possible to answer this question.

The numbers of beds set aside fluctuated on a daily basis, these changes would be a reflection of how many patients had a positive test result at the time, it is therefore not possible to give a definitive response to this question.
