St Joseph's Hospital

I would like to know how many employees,(Consultants,radiologists etc) are shareholders in the above hospital

The Health Board does not hold this information. However, as part of our Standards of Business Conduct we would encourage anyone who does hold shares of this type to submit a Declaration of Interest. It should be noted that the onus is on an individual to make a decision about what they declare. A database of all Declarations of Interest received is available on the following link.
