

Freedom of Information Request	FOI 22-039	18 th January 2022
--------------------------------	------------	-------------------------------

Please can I have the percentage of unvaccinated and vaccinated patients in the Grange hospital needing treatment for Covid from the 01/01/2022 up until now.

Between 01/01/2022 and 17/01/2022, there were 121 COVID positive patients in the Grange University Hospital (**this includes ALL wards/specialties**). The breakdown by vaccination number is as follows:

0 vaccinations = 36 (29.8%)
1 vaccination = 5 (4.1%)
2 vaccinations = 37 (30.6%)
3 vaccinations = 43 (35.5%)
