

Freedom of Information Request	FOI 22-298	27 th July 2022
--------------------------------	------------	----------------------------

NICE have recently updated the guidance on the use of Continuous Glucose Monitoring (CGM) in Type 1 adults, children & young people and Type 2 adults. (NG17, NG18 & NG28)

This new guidance recommends more widespread use of CGM devices.

Please can you tell me:

- 1. What plans the LHB have to implement this updated guidance into a policy and what timescales you are working to?**
A business case has been submitted for approval to the Health Board's Executive Team, which includes provision for the expected increased use of Continuous Glucose Monitoring (CGM) in Type 1 adults, children & young people and Pregnancy.
- 2. What are the steps/ procedures involved in producing the new policy from start to finish?**
Please find attached the Health Boards Policy for the Management of Policies and Written Control Documents which details the process for producing a new policy.
- 3. If you are not willing to implement the NICE recommendations can you provide reasons why this would be?**
Please refer to Q1.
