

Freedom of Information Request	FOI 22-338	16 th August 2022
--------------------------------	------------	------------------------------

In respect of Waiting Lists, I thought that by including the BCUHB Responses, that my instructions would be clear and indeed one Board has responded exactly as requested. It has occurred to me however, that the acronyms used by BCUHB of (CA) Cancelled Admitted and (CO) Cancelled Other may be peculiar to BCUHB and not in common usage.

I may well have misled you by referring to "Referred to Treatment" when what I meant was "Cancelled Admitted". If so, I apologise for this oversight.

The CA figure is something which will be recorded by you for the period in question.

A while ago I asked BCUHB for a category list of those falling within the definition of "Cancelled Other" and I attach an extract of a Response that I received. The 177,508 figure that you quote presumably comprises "Referred to Treatment" and "Cancelled Admitted". Can you advise me what the CA element is within the 177,508 figure.

	Removed other than treated (ROTT)	Booked/Treated Patients	Total
Outpatients	32,579	139,127	171,706
Inpatient/Daycase	8,363	38,381	46,744
Total	40,942	177,508	218,450
