

Freedom of Information Request	FOI 22-341	16 th August 2022
--------------------------------	------------	------------------------------

Under the Freedom of Information Act, please could you provide me with following information.

The number of A&E attendances on July 18, 2022 and July 19, 2022, with a primary or secondary diagnosis of:

- **T67 Effects of heat and light**
0
- **L55 Sunburn**
<5

Where less than five (5) patients have been identified, Section 40 of the Freedom of Information Act 2000 has been applied as the Health Board cannot provide the exact numbers due to the low numbers of individuals involved (5 or less). The Health Board believes there is a potential risk of individuals being able to be identified, when considered with other information already available within the public domain, if this was disclosed. Therefore, the data is classed as personal data as defined under the General Data Protection Regulation (GDPR) and Data Protection Act 2018 and its disclosure would be contrary to the data protection principles and constitute unfair and unlawful processing in regard to Articles 5, 6, and 9 of GDPR. We are therefore withholding this detail under Section 40(2) of the Freedom of Information Act 2000. This exemption is absolute and therefore there is no requirement to apply the public interest test.

The number of finished admission episodes on July 18, 2022 and July 19, 2022, with a primary or secondary diagnosis of:

- **T67 Effects of heat and light**
0
- **L55 Sunburn**
0

The number of occasions on July 18, 2022, and July 19, 2022, where an occupied ward or clinical area had a daily maximum temperature exceeded 26 °C. Please include each occupied ward or clinical area having a daily maximum of over 26 °C as one incident (e.g. if two wards exceeded the daily maximum temperature for two days and one clinical area exceeded the threshold for one day then the number of occasions to be reported is five).

The Health Board does not routinely record temperatures.
