

Freedom of Information Request	FOI 22-379	1 st September 2022
--------------------------------	------------	--------------------------------

I would like to make a request under the Freedom of Information Act (2000) for the following information:

How many dental practices are there in the Aneurin Bevan Health board area, currently offering treatment on the NHS?

78 practices.

How many dental practices were there in the Aneurin Bevan Health Board area offering treatment on the NHS in 2012?

The Health Board does not hold the data for this period.

How many people are currently registered with an NHS dentist in the health board area?

Since 2006 patients are not 'registered' with dental practices and therefore patients

can seek dental treatment from any dental practice. It is an individual's responsibility as a patient to attend regular appointments at their chosen dental practice to remain on the practice patient list. All lists are held at practice level, therefore the Health Board will not have access to this information.

How many people are currently on waiting lists for NHS dentists in the health board area?

The Health Board does not hold this data, waiting lists are held by individual practices.

When referring to people, can this information refer to individuals, rather than families who may make joint applications for an NHS dentist for them and their children.
