**Please could you provide us with insight as to what proportion of pay-outs are made up of maternity claims in your area.**

**For instance a line from you guys saying that maternity makes up ....% of the compensation pay-outs in 2020/21 just so we can make sure we have a well-rounded piece, that covers the whole of the UK.**

In 2020/21, Maternity accounted for 19% of the total compensation paid by the Health Board.
