

Freedom of Information Request	FOI 22-425	29 th September 2022
--------------------------------	------------	---------------------------------

If you are part of a group hospital model, we would like you to return data for each hospital provider who cares for babies, children, and young people.

Please find attached the spreadsheet completed as requested.

The Health Board are unable to provide information in relation to:

Q1 Reasons for admission to adult/ward bed and Q3 deprivation percentiles and this is not recorded by the Health Board.

Please note the figures provided are the number of admissions (inpatients and day cases) and does not include any assessments.

Please note where less than five (5) patients have been identified, Section 40 of the Freedom of Information Act 2000 has been applied as the Health Board cannot provide the exact numbers due to the low numbers of individuals involved (5 or less). The Health Board believes there is a potential risk of individuals being able to be identified, when considered with other information already available within the public domain, if this was disclosed. Therefore, the data is classed as personal data as defined under the General Data Protection Regulation (GDPR) and Data Protection Act 2018 and its disclosure would be contrary to the data protection principles and constitute unfair and unlawful processing in regard to Articles 5, 6, and 9 of GDPR. We are therefore withholding this detail under Section 40(2) of the Freedom of Information Act 2000. This exemption is absolute and therefore there is no requirement to apply the public interest test.
