Our Response

We have conducted a search of our records and have concluded that we are unable to provide a response for this request as we do not hold this information centrally. This means that we would need to search individual patient records to obtain this information. We have established that it would take in excess of 18 hours to access this information and therefore exceeds the appropriate costs limit under Section 12 of the Freedom of Information Act 2000, which is currently £450. This is not an exemption which requires us to consider the application of the public interest test
