

I am emailing to request information regarding the current wait list time under the Adult ADHD Assessment and Diagnostic Service area.

Unfortunately, the Health Board is unable to provide information about waiting times for ADHD assessments at this time. Since accepting referrals for ADHD assessment in June 2022, the Health Board has experienced a significant demand for assessments and demand continues to be high. Currently, the demand is significantly higher than our capacity to offer assessments.

However, the Welsh Government has recently announced that monies are available for Health Boards and other organisations to bid for to help improve ADHD services. The Health Board is submitting a bid for funding which, if successful, will be used to increase the capacity of resource for the assessment, diagnosis, and treatment of ADHD.
