

Freedom of Information Request	FOI 21-100	8 th March 2021
--------------------------------	------------	----------------------------

Under the FOI act I would like you to inform me of the following information.

Royal Gwent Hospital and Nevill hall hospital. How many people have died in each hospital from Jan 2020 to Dec 2020 due to covid 19 alone?

I am aware you publish all the covid death data that include people who die of, or with covid 19 within 28 days of a test. So these could have died of other causes. I wish to know how many have died purely of covid 19. Also how many have died and been attributed to a covid 19 death without having being tested for covid ,or died of Mycardial infarction ,cancer or other .

The Health Board reports every death in our hospitals to Public Health Wales (PHW), this includes all causation factors. Public Health Wales will then perform statistical alignment meeting the definition of a COVID death and the patient place of residence as some of the Health Board area residents may die in other hospitals outside of the Aneurin Bevan Health Board responsibility. All Health Board deaths data is reported on the Public Health Wales website and in the Office of National Statistics (ONS) data.

Please refer to PHW website and PHW for further information via the following link below:
