

Freedom of Information Request	FOI 22-102	14 <sup>th</sup> March 2022
--------------------------------	------------	-----------------------------

**I'm looking into the targets set by the Welsh Pharmaceutical Committee in 2019 as part of the '[Pharmacy: Delivering a Healthier Wales](#)' report. The report set a target of having "30% of community pharmacies with an independent prescriber actively providing services" by 2022 and we are interested to see if that target has been met.**

**I was wondering if you might be able to share data on the number of community pharmacies in your health board that are currently providing pharmacist independent prescribing services?**

As of 15<sup>th</sup> February 2022, there are 14 community pharmacies commissioned to provide independent prescribing services.

This represents just under 11% of the 131 community pharmacies.
