I would like to find out some figures regarding daily patient arrivals, discharges and triages at the Grange University Hospital.

Are you able to provide the following, please? I'd be happy with either the average rates or the raw data.

Since the Grange University Hospital opened:

- **How many people arrive there for treatment each day?**
The average number of daily admissions = 110
- **How many patients are discharged each day?**
The average number of daily discharges = 105
- **How many patients are triaged at the emergency department each day?**
The average number of ED attendances = 251
- **What percentage of emergency department patients have been admitted, transferred or discharged within the national four-hour target time?"**
56.1%
