Does the Trust currently have a Learning Management System, or other forms of digital training delivery tools?

If so, what is the name of the product and vendor?

If not, do you currently provide remote learning/training? If you currently have a digital learning platform in place, when does the contract end?

The Health Board currently uses the following:

- The Learning Management System within the Electronic Staff Record (ESR). This system is provided by IBM and procured nationally and reviewed annually
- Training is also provided via MS Teams.

Other platforms used in the Health Board via other providers are as follows:

- Onefile via a training provider for delivery of Health Care Support Worker induction. The contract with the external training provider is reviewed annually.
- ABUHB Wellbeing Hub – for delivery of corporate induction to new staff. Reviewed on a regularly basis.

The Health Board also has access to a range of other platforms provided by the NHS Wales and the public sector but the Health Board does not commission these so we are unable to provide contract details for these.

They include:

- Gwella via HEIW internet site. Training materials are available for All Health Boards in Wales.
- Agored training provider– various training courses available.
- Academi Wales - training materials/courses available for All Health Boards in Wales.
