Neuro-Developmental Data

FOI 22-184

Question	2018	2019	2020	2021
1. How many diagnoses of Autism were given to children (under 18 years of age) in 2021, 2020, 2019 and 2018?	196	300	274	282
2. What is the current waiting time, from referral to assessment, for a child awaiting an Autism assessment? Please sort this data into male and female wait times	The current waiting time for a neuro-developmental assesement for ASD / ADHD is 33 weeks regardless of male or female. The current male / female ratio of the waiting list is 73%(male):27% (female).			
3a. How many children (under 18 years of age) are currently waiting for an assessment by your children's neurodevelopmental (ND) services?	638			
3b. Of those children waiting, how many are waiting for an Autism assessment by your health board?	638			
	2018	2019	2020	2021
4. What percentage of children were seen within the waiting time target of 26 weeks from referral to assessment? Please provide data for 2021, 2020, 2019 and 2018	86.50%	85.46%	86.90%	71.20%
5. At what age do you begin assessing children for Autism?	The ABUHB Neuro-Developmental Service accept referrals for child and young people aged 0 - 17 years, 6 months for consideration of a neuro-developmental assesement for Autistic Spectrum Condition (ASC) and/or Attention Deficti Hyperactivity Disorder (ADHD)
