

Freedom of Information Request	FOI 22-205	18 th May 2022
--------------------------------	------------	---------------------------

The National Axial Spondyloarthritis Society (NASS) are working to understand what current processes are in place for internal referrals for patients with suspected axial SpA, to Rheumatology within secondary care. This is part of the work NASS are undertaking to achieve a Gold Standard Time to Diagnosis for Axial SpA patients.

It would be great if you could provide your answers to this Freedom of Information by completing and returning the attached Word document.

Please find attached the word document completed as requested.
