| Freedom of Information Request | FOI 21-443 | 5th November 2021 |

I would like to know how many people have been admitted to the RGH the last 2 months. I want to know how many were covid vaccinated. And how many were not.

There were 4,988 admissions to the Royal Gwent Hospital during August and September 2021. Of these, 4,640 patients had received at least one vaccination prior to being admitted and 348 patients had not received a vaccination.

Note: This would include ALL admissions, elective or emergency for any condition/diagnosis.
