

Freedom of Information Request	FOI 21-459	23 <sup>rd</sup> Novemeber 2021
--------------------------------	------------	---------------------------------

- 1. Provide me with a copy of the report by the Aneurin Bevan Community Council on the Grange Hospital, which was referred to in the South Wales Argus with any further up documentation and action plan in taking matters forward.**

<https://aneurinbevanchc.nhs.wales/what-we-have-to-say/report-library/>

- 2. I see the Minister has made reference to the Flag Ship Hospital at an investment cost of £358m, and have you a breakdown of what the costs were as I believe the contractor completed earlier an expected**

The attachments provide a breakdown of the costs incurred to date but please note the following:-

- The contract (including the original works) has not yet reached final account, works are still ongoing within the hospital, and although it officially opened early, the scheme is not yet finished.
- I have provided figures to show spend to 31.03.2021 (the last audited costs) and 30.09.2021 (costs to date) as mentioned, there are still post completion works ongoing and we have not yet finalised the procurements of equipment and ICT.
- The figures do not include the additional funding allocated by Welsh Government for the COVID-19 allocation.
- The Health Board has also been allocated a further £3.5m for Same Day Emergency Care (SDEC) at the Grange University Hospital (GUH.) This has been excluded from the figures, as there is no spend relating to it to date.
