

Freedom of Information Request	FOI 21-479	15 th November 2021
--------------------------------	------------	--------------------------------

Under the Freedom of information act let me have all the Covid alone death numbers for the past 12 months November 2020 to November 2021 and how many people are actually in your hospital to date with Covid19

I can confirm that, as at 9.45 on Friday 12th November, there were 67 COVID positive patients in our hospitals (across all sites).

The Health Board reports every death in our hospitals to Public Health Wales (PHW), this includes all causation factors. Public Health Wales will then perform statistical alignment meeting the definition of a COVID death and the patient place of residence as some of the Health Board area residents may die in other hospitals outside of the Aneurin Bevan Health Board responsibility. All Health Board deaths data is reported on the Public Health Wales website and in the Office of National Statistics (ONS) data.

Please refer to PHW website and PHW for further information via the following link below:
