The Health Board does not hold this information.

**7. How many patients that were administered to the hospital that were NOT vaccinated against covid-19 suffered a miscarriage, for each of the months below?**

The Health Board does not hold this information.

**8. How many patients that were administered to ICU were vaccinated, for each of the months below?**

The Health Board does not hold this information.

Please note:

- The data includes admissions to ALL specialties, including mental health
- The data includes inpatient, day case and regular day attender admissions
- The data includes both elective and emergency admissions
- The data includes patients who received their vaccination prior to being discharged from hospital (or on the day of discharge) and will include both patients vaccinated before being admitted and patients vaccinated whilst in hospital
- As per previous, similar requests, we are not able to provide data for patients who died of COVID-19

Patients receiving vaccinations prior to December 2020 were probably patients taking part in clinical trials as the rollout of vaccinations for COVID-19 did not start until December 2020
