

Freedom of Information Request	FOI 21-395	13 th October 2021
--------------------------------	------------	-------------------------------

- 1. Confirm which categories of patients were contacted in fulfilling the COVID-19 Wales Response and Pathways Standard Operating Plan (SOP), and having undertaken this SOP?**
- 2. How many patients entered into a DNACPR?**
- 3. Of those patients, how many DNACPRs were put in place in accordance with legal requirements (and how many did not meet the legal requirements?)**

In order to gather the information to the questions, above, we would have to carry out an extensive investigation, which would involve the review of individual patient health records to determine the category and number of patients who entered into a DNACPR. We have calculated that in order to comply with your request it would exceed the appropriate costs limit under section 12 of the Freedom of Information Act 2000.
