

Freedom of Information Request	FOI 21-396	11 th October 2021
--------------------------------	------------	-------------------------------

1. I am referring to how many patients are waiting 8 months or more for a follow up appointment with their consultant.

At the end of August 2021, there were 151 patients waiting for a follow-up appointment for trauma & orthopaedic, where the location (on the system) indicated that they will be seen at the Royal Gwent hospital and who were waiting more than 34 weeks (8 months) past their agreed clinical target date to be seen in clinic.

2. My question is how many patients are waiting 18 months + at the Royal Gwent for elective surgery.

At the end of August 2021, there are 2,112 patients waiting at RTT stage 4 (inpatient or day case treatment) for elective trauma & orthopaedic surgery, where the location (on the system) indicated that they will be admitted to the Royal Gwent hospital and who were waiting more than 78 weeks (18 months).
