

We would be very grateful to you for supplying the requested information please.

Please see the information provided in the table below.

Please note where less than five (5) patients have been identified, Section 40 of the Freedom of Information Act 2000 has been applied as the Health Board cannot provide the exact numbers due to the low numbers of individuals involved (5 or less). The Health Board believes there is a potential risk of individuals being able to be identified, when considered with other information already available within the public domain, if this was disclosed. Therefore, the data is classed as personal data as defined under the General Data Protection Regulation (GDPR) and Data Protection Act 2018 and its disclosure would be contrary to the data protection principles and constitute unfair and unlawful processing in regard to Articles 5, 6, and 9 of GDPR. We are therefore withholding this detail under Section 40(2) of the Freedom of Information Act 2000. This exemption is absolute and therefore there is no requirement to apply the public interest test.
