Freedom of Information Request	FOI 22-469	19 <sup>th</sup> October 2022
--------------------------------	------------	-------------------------------

**I'm just enquiring into infectious disease and control at ABUHB, I was just wondering if you have completed any questionnaires or other type of research into Viruses that you could possibly share, or even possibly put me into contact with someone who would be able to help me. I'm planning on using this in a paper written for my welshbacc at college, I'm also a public health worker for ABUHB so I totally understand if any research is private.**

The Health Board's Infection Prevention Team participate in national surveillance, with Public Health Wales (PHW), therefore you may wish to contact [PHW](#) direct for this information.
