

I am writing to request the following information regarding the number of Covid-19 vaccine doses administered by centres run by your Trust, and the number of vaccine doses discarded or thrown away at these centres run by your trust.

Please provide figures and information for the time period starting from when the UK vaccine-roll out began in December 2020 - Present.

- 1. The total number of single Covid-19 vaccine doses administered by all health authorities within your trust each month, broken down by manufacturer, e.g. AstraZeneca, Pfizer and Moderna.**

Data on vaccinations given are published daily and weekly on the Public Health Wales COVID-19 Surveillance Dashboard which can be accessed via the following link:

<https://public.tableau.com/app/profile/public.health.wales.health.protection/viz/RapidCOVID-19virology-Public/Headlinesummary>

- 2. The total number of single vaccine doses that have been wasted or discarded at vaccine hubs controlled by your trust each month, broken down by manufacturer, e.g. AstraZeneca, Pfizer and Moderna.**

Welsh Government publish data by Health Board on the cumulative COVID-19 vaccine doses administered, not suitable for use, by vaccine type. Please find below a link to the data within each statistical release:

<https://gov.wales/covid-19-vaccination-programme-stock-and-distribution-15-august-2021-html>

- 3. Please state the reasons for this wastage or discarding, e.g. dropped or contaminated vials; human error in the preparation process; expired stock; leftover doses; and faulty syringes**

The majority of the vaccine not suitable for use has been due to the following reasons as per Regulation 174 for Pfizer/BioNTech COVID-19 Vaccine:

- Particulate matter in the vial after dilution
- Particulate matter in the vial prior to dilution
- Failure to extract 6 doses of 0.3mls from the vaccine vial
