

Freedom of Information Request	FOI 21-371	22 nd September 2021
--------------------------------	------------	---------------------------------

I'd like to request the number of patients under the age of 16 admitted to hospital with covid-19 for the period June 1st 2021- September 1st 2021. Be that suspected or due to a positive Drosten PCR test result.

Between 1st June 2021 and 31st August 2021 fifteen (15) patients under the age of 16 were admitted to our hospitals and were subsequently treated for COVID-19. All of these patients were admitted to the Grange University Hospital and acquired COVID 'within the community' i.e. acquired prior to admission.
