

# Controlled Drug Schedules

## Guidance for Care Homes

Schedule 2 CDs			
Controlled Drug	Brand Name/s	Legal Requirements	
Morphine	MST Continus®	Requires safe custody in a Controlled Drug (CD) cabinet	
	Severedol®		
	Zomorph®		
	MXL®		
	Oramorph® concentrated oral solution 100mg/5ml		
Diamorphine	-	Need to be recorded in CD register	
Dexamphetamine	Dexedrine®		
Pethidine	-		
Oxycodone	OxyContin®		
	Oxynorm®		
	Longtec®	2 trained members of staff required to record in CD register	
	Shortec®		
Methadone	Physeptone®		Balances should be checked weekly
Methylphenidate	Ritalin®		
	Concerta®		
Fentanyl	Durogesic DTrans®		
	Mezolar Matrix®		
	Matrifen®		
	Fentalis®		
	Fencino®		
Schedule 3 CDs			
Buprenorphine	Reletrans®	Buprenorphine and temazepam must be stored in the CD cabinet. Other CDs listed in schedule 3 do not need to be stored in the CD cabinet.	
	Butec®		
	Butrans®		
	Subutex®		
	Temgesic®		
Pregabalin	Lyrica®	Schedule 3 CDs do not need to be recorded in the CD register. However it is good practice to make records for temazepam and buprenorphine. It is also good practice to treat the other Schedule 3 drugs as DLM's and record there usage.	
Gabapentin	Neurontin®		
Midazolam	Hypnovel® Injection		
	Buccolam® oromucosal solution		
Temazepam	-		
Phenobarbital	Fortral®		
Tramadol	Zydol®		
	Zamadol®		
	Marol®		
Schedule 4 CDs			
Diazepam	Valium®	Drugs Liable to Misuse (DLMs) is not a legal classification but does help to identify medications that are known to be abused.	
Clobazam	Frisium®		
Lorazepam	Ativan®		
Nitrazepam	Mogadon®		
Clonazepam	Rivotril®		
Chlordiazepoxide	Librium®	Safe custody is not required nor is it a requirement to make records in the CD register. However it is good practice to record their usage.	
Zaleplon	-		
Zolpidem	Stilnoct®		
Zopiclone	Zimovane®		
	Zimovane LS®		
This is not a comprehensive list.
