Nurse Led Lung Cancer Telephone Review Clinic

**Chest Clinic,
St Woolos Hospital**

You have recently attended an appointment at St Woolos Hospital, Royal Gwent Hospital or Velindre Hospital. The consultant or nurse who met you at that time has asked that you have a telephone review appointment with the Lung Cancer Specialist Nurses.

Enclosed with this information leaflet is likely to be a Chest X-ray request form (unless this was given to you at the time or you have recently had a CT scan)

Please attend your local hospital (details on the reverse of the X-ray form) 7-10 days before your appointment.

The chest X-ray will be reviewed by a consultant following your telephone consultation and the specialist nurse will discuss this further with you.

What should I discuss with the nurse?

You will have received notification from the hospital of the telephone review appointment date & time, please ensure that you are either at home or able to take a call on your mobile with a degree of privacy as we will be discussing your recent health and any concerns you have.

In preparation for your telephone consultation you should consider if you have had any new breathing symptoms, had change in appetite, or energy levels.

We will also ask you some other questions and may have sent you a Holistic Needs Assessment form to complete which we will also discuss.

If there are any concerns as a result of your chest X-ray or symptoms we will discuss suitable appointments and / or other investigations.

We may send you a patient experience questionnaire to evaluate your contact with the service, however if you have any feedback or concerns please do not hesitate to get in touch with us.
